

MUHAMMED SINAN M

ASPIRING SOFTWARE DEVELOPER

Valanchery, Malappuram, Kerala, India | muhammedsinan.m67@gmail.com | +918590568566

Portfolio: <https://www.muhammedsinan.in> | GitHub: <https://github.com/sidoxsinu> | LinkedIn: <https://www.linkedin.com/in/sidoxsinu/>

Computer Science student and Software Engineering Intern specializing in full-stack web development and AI-driven systems. Experienced in building scalable platforms from scratch, integrating automated workflows, and delivering production-ready technical solutions under pressure. Expertised in Agentic Tools | Claude, Anitgravity, Gemini, etc

AREA OF EXPERTISE

Full-Stack Web Development	Git, VS Code, Vercel, Slack/Bitbucket	Database Design & Management
AI Systems & Automation	Integrations, FASTAPI, React, Jira, etc	System Design & Problem Solving

KEY ACHIEVEMENTS

- Built Next-Gen AI Assistant System, winning **Best Technical Project** in AI Hackathon
- Secured **2nd Prize** – Webathon 2025 (Pylon platform development)
- Finalist – **BeachHack Season 7**, cleared multi-stage selection among **100+ participants**
- Presented in **Medex Concordium 2025** - Kerala's Biggest Medical Expo (Presented Medical SaaS Product)

PROFESSIONAL EXPERIENCE

Software Engineering Intern | Torcue Digital |

May 2026 – Present

- Led large-scale programs and digital campaigns (240+ hours), Coordinated teams, events, and outreach initiatives | Built leadership and execution skills in high-responsibility roles

Research Intern – Suvidha Foundation

Mar 2026 – Apr 2026

- Spearhead local backend development and technical troubleshooting for the "Happi" project.
- Design and implement automated workflow integrations, including seamless Slack-to-Bitbucket pipelines.

NSS Volunteer Leader

- Led digital campaigns and coordinated outreach initiatives involving over 240+ hours of service.

SKILLS

Languages: Python, C, JavaScript, HTML5, CSS3 | **Frontend:** React, Next.js, Vite, Tailwind CSS | **Backend & AI:** FastAPI, Streamlit, Ollama, Node.js | **Databases:** PostgreSQL, Supabase, MySQL, SQLite | **Tools:** Git, BitBucket, Jira, VS Code, Vercel, REST APIs,

PROJECTS

Next-Gen AI Assistant System

- Multi-modal AI terminal using Groq API (LLaMA 3.3 + Whisper)
- Designed for real workflows with fast response and advanced reasoning

ParackalTravelHub

- Developed a comprehensive travel management platform focusing on clean UI/UX and efficient data handling.
- Optimized frontend performance for seamless browsing and itinerary management.

Pylon – Smart Scholarship Finder

- Custom filtering algorithm with optimized UI and performance
- Built using pure HTML, CSS, JavaScript

SilentGuard – AI Failure Prediction System

- AI-based anomaly detection and predictive alert system
- Focus on system monitoring and preventive maintenance

EDUCATION

B.Tech – Computer Science & Engineering

2025 - Present

Christ College of Engineering, Irinjalakuda

Higher Secondary – Science

2023 – 2025

MES HSS, Irimbiliyam, Kerala

ADDITIONAL INFORMATION

- Certifications:** IEEE (Including **7 IEEE clubs**), **Google Developer** Program (Since 2025), NSS Campus Leader
- Technical Exposure:** Hackathons (**NIT,VIT,RSET**,etc), AI Bootcamps(IIT,NIT,etc), Full-Stack Workshops (MERN, IoT, MATLAB, AI Systems), Freelanced Projects, **Co-Chief financial officer of IEDC CCE**
- Languages:** English, Malayalam, Hindi, Arabic (Basics)
- Soft Skills:** Communication, Teamwork, Adaptability, Problem-Solving
