EXPERIENCE

Software Engineering Intern | Torcue Digital | 10 June 2026 - Present

- Internship details are confidential under an NDA.

Freelance Web Developer | Self-employed | 2025 - Present

- Delivered 5+ paid client websites end-to-end, covering UI/UX, performance optimization, SEO and deployment.
- Built ParackalTravelHub, a bilingual (English/Malayalam) travel agency platform with LocalBusiness SEO markup, and AvenWing, a premium product website.

Research Intern | Suvidha Foundation | Mar 2026 - Apr 2026

- Completed a one-month internship contributing to local backend development and troubleshooting.

PROJECTS

Next-Gen AI Assistant System | Python, Groq API, LLaMA 3.3, Whisper

- Built a multi-modal AI terminal for real-time voice and text workflows using LLaMA 3.3 for responses and Whisper for speech-to-text.
- Won Best Technical Project at Google for Developers Build with AI.

GhostOps (36-hour hackathon) | Python, FastAPI, SQLite, React, Docker, AWS IAM, GitHub API

- Built a zero-trust offboarding tool that maps and revokes developer credentials across AWS IAM, GitHub and SSH from a single dashboard.
- Implemented the FastAPI backend with SQLite storage and a Dockerized SSH environment for live revocation demos.

GATE, Layover Companion | Next.js, Supabase, Groq API, Vercel

- Built a mobile-first app that turns waiting time into location-based missions, with an XP rank system and a travel passport of photo memories; deployed on Vercel for the LAYOVER hackathon (TinkerSpace Calicut, Oct 2026).

Pylon, Smart Scholarship Finder | HTML, CSS, JavaScript

- Built a custom filtering algorithm and performance-tuned UI to match students with scholarships. 2nd Prize, Webathon 2025.
